STRENGTHS

Friendly and Outgoing: I enjoy getting to know my coworkers on a personal level and helping others learn new skills.

Architecture Focused: I am not intimidated by large problems and designing complex systems.

Documentation Forward: I believe good software is well documented and designed with an eye toward how it will be encountered by someone who is coming to it fresh.

CORE SKILLS

Languages: Javascript ES6+, Typescript, HTML, CSS, GoLang, Lisp, Ruby, Python, Shell, Perl, Bash, SQL

Frameworks: React, Redux, Redux Saga, React Query, Electron, Styled Components, MUI, Jest, Model Context Protocol

Platforms: NodeJS, NPM, Unix

Tools: Webpack, Babel, Git, Azure Pipelines, Jenkins, Figma

AI Tools: Claude Code, ollama, Local LLMs, MCP Servers, Agent Skills

SECONDARY SKILLS

Full Stack Development

Rapid Prototyping

Local LLM and MCP Server Design

Test Driven Development (TDD)

Continuous Integration/Continuous Deployment (CI/CD)

EDUCATION

Indiana University, Bloomington, Indiana

Masters of Science in Computer Science, May 2010

Earlham College, Richmond, Indiana

Bachelor of Science in Computer Science, May 2008

INDUSTRY EXPERIENCE

SteelSeries

Chicago, Illinois; December 2018 - July 2026

Senior Fullstack Developer

- Designed and implemented major architectural features, including a fully featured video editing suite, a live-preview mouse and keyboard editor, an Electron application and sandbox harness, and internal shared NPM libraries.
- Refactored a mature Electron app to enforce sandboxing: built a flexible and extensible API over Electron IPC used by multiple teams, delegated pieces of the app into WebContentsViews, and designed and implemented an internal windowing system.
- Completely refactored a complex, mature initialization architecture that was exhibiting race conditions.
- Built a custom solution to embed React components within legacy Knockout.js components and vice versa.
- Built several complex event-driven Redux modules and extensive socket logic.
- Created and maintained a custom UI component library built on styled-components and later MUI.
- Set up and administered several internal NPM packages used across global teams.
- Configured and debugged Azure CI/CD pipelines and performed production release duties.
- Performed frontend performance auditing and tuning, and ran A/B testing for new features.
- Built custom CRM integrations for promotions.
- Proactively built tools for other departments after learning about their jobs and pain points, including a custom admin tool used throughout the company for internal support.
- Always led with Test Driven Development (TDD).
- Mentored junior developers via constructive PR reviews and pair programming sessions, maintaining high React standards.
- Led regular technical presentations for all engineers.

- Electron, NodeJS, GoLang, Lisp, JS, TS, React, styled-components, Redux, Redux Saga, React Query, Knockout.js, Figma, NPM, Azure, Jenkins

Placester

Chicago, Illinois; December 2017 - December 2018

Senior Developer

- Built NodeJS backend services on AWS Lambda to perform complex routing of real-estate leads to real-estate agents.
- Built GraphQL APIs tying together disparate legacy services to provide a unified data interface.
- Assisted in overhaul of legacy Backbone.js apps to Angular 6.
- NodeJS, GraphQL, Apollo Server, Serverless, AWS Lambda, Angular

Fulton Works

Chicago, Illinois; September 2016 - June 2017

Senior Fullstack Developer

- Quickly prototyped several web-based startups. Worked closely with founders to create and refine products.
- Worked with Paro, AllInOrder, OfficeLuv, Grace, Pizza Hotline, White Jupiter.
- React.js, Redux, Javascript ES6, CSS3, Django, Python, Heroku, Webpack, Test Driven Development

TD Ameritrade

Chicago, Illinois; January 2016 - July 2016

Senior Tooling Developer

- Automated build and deployment tasks, reducing deployment time from 8 hours of dedicated engineer time to 15 minutes of QA time.
- Left position once automation was complete.
- Python, Fabric, Jenkins

Hiked Appalachian Trail

West Virginia to Maine; June 2015 - October 2015

Strata

Chicago, Illinois; August 2014 - June 2015

Web Developer

- Built web-based internal data analysis tooling.
- AngularJS, Bootstrap, Javascript, HTML5, CSS3

GlobalNOC

Bloomington, Indiana; November 2012 - July 2014

Software Engineer

- Built Network Operations Center (NOC) dashboard reporting live outages and network errors. Used by several major universities and US State networks.
- Maintained an array of router diagnostic software.
- Javascript, YUI, CSS3, HTML5, Perl, MySQL, Jenkins

Cerner Corporation

Kansas City, Missouri; January 2011 - June 2012

Software Engineer

- Developed highly available SaaS for message processing and routing.
- Java 6, Mule ESB, Spring MVC, Maven, Jenkins
