PROFESSIONAL SUMMARY

Senior frontend engineer with 15 years building web applications, most recently nearly eight years at SteelSeries designing and shipping large architectural features: a video editing suite, an Electron application and sandbox harness, an internal UI component library, and shared NPM libraries. Core frontend stack: **React, Redux, TypeScript, Electron**. Architecture-focused and documentation-forward, with an eye for developer experience, maintainability, and end-user quality. Full-stack range (NodeJS, GraphQL, Python) and prior brokerage experience at TD Ameritrade. Chicago-based and ready to help architect the next generation of a high-performance trading platform. Live data-viz side project: statzonstatz.com.
