

Nathan Myers

(812) 391-1530 | nathanmyers@proton.me | github.com/nathanmyers | Chicago, Illinois

PROFESSIONAL SUMMARY

Senior full-stack engineer with 15 years across startups and larger platforms (SteelSeries, TD Ameritrade, Cerner). Production experience across TypeScript, Angular, and React, plus GraphQL/NodeJS API design unifying disparate legacy services. Architected an Electron application and sandbox execution harness and a shared internal component library. Polyglot background (Java, Python, JavaScript/TypeScript, Go) with a track record of fast ramp-up on new stacks and languages. Mentorship-oriented technical leader.

CORE COMPETENCIES

TypeScript & Angular

Full-Stack Architecture

API & GraphQL Design

React & Redux

Cross-Team Technical Leadership

Mentoring

Cloud (AWS Lambda)

Polyglot Engineering

WORK EXPERIENCE

Placester

December 2017 - December 2018

Senior Developer

Chicago, Illinois

- Assisted in overhaul of legacy Backbone.js apps to Angular 6, delivering a modernized, maintainable frontend.
- Built GraphQL APIs on NodeJS/AWS Lambda, unifying disparate legacy real-estate services into a single coherent, scalable data interface.

SteelSeries

December 2018 - July 2026

Senior Frontend Developer

Chicago, Illinois

- Designed and maintained an internal UI component library and React systems, sustained across nearly eight years.
- Architected an Electron application and sandbox execution harness end to end.
- Led cross-team initiatives by proactively building tools for other departments after learning their pain points.
- Mentored junior developers via constructive PR review and pair programming.

Cerner Corporation

January 2011 - June 2012

Software Engineer

Kansas City, Missouri

- Developed highly available SaaS for message processing and routing.
- Stack: Java 6, Mule ESB, Spring MVC, Maven, Jenkins.

EDUCATION

M.S. Computer Science Indiana University

2010

Bloomington, IN

B.S. Computer Science Earlham College

2008

Richmond, IN

SKILLS

Languages: JavaScript ES6+, TypeScript, GoLang, Java, Python, SQL **Frameworks:** Angular, React, Redux, NodeJS, GraphQL

Cloud & Tools: AWS Lambda, Jenkins, Git, Webpack
