PROFESSIONAL SUMMARY

Senior frontend engineer with 15 years across startups and larger platforms (SteelSeries, TD Ameritrade, Cerner). Deep, sustained experience with data visualization and complex interactive interfaces - including a decade-long, continuously operating interactive data visualization project. Architected a real-time video editing suite, an Electron sandbox harness, and an internal UI component library at SteelSeries. Documentation-forward and mentorship-oriented, with early-career experience in highly available healthcare-adjacent SaaS.
