

Nathan Myers

(812) 391-1530 | nathanmyers@proton.me | github.com/nathanmyers | Chicago, Illinois

PROFESSIONAL SUMMARY

Senior frontend engineer with 15 years across startups and larger platforms (SteelSeries, TD Ameritrade, Cerner). Architecture-focused: designed and shipped an Electron application and sandbox harness, an internal UI component library, and shared NPM libraries used org-wide. Deep React and TypeScript background, with a track record of leading technical direction through architecture, code review, and mentorship rather than a formal title. Documentation-forward and mentorship-oriented - known for pairing, constructive PR review, and building cross-team tools after learning a department's actual pain points.

CORE COMPETENCIES

React & TypeScript Architecture	Component Library Design	Code Review & Mentoring	Cross-Team Tooling
Electron Applications	Full-Stack Range (Node/GraphQL)	Performance-Minded UI	Documentation-Forward Engineering

WORK EXPERIENCE

SteelSeries

December 2018 - July 2026

Senior Frontend Developer

Chicago, Illinois

- Architected and shipped major features including a video editing suite, an Electron application and sandbox harness, and internal shared NPM libraries adopted org-wide.
- Designed and maintained the internal UI component library used across product teams.
- Led technical direction through architecture decisions, constructive PR review, and pair programming - mentoring junior developers without a formal management title.
- Proactively built cross-team tools after learning other departments' actual pain points.

Placester

December 2017 - December 2018

Senior Developer

Chicago, Illinois

- Built NodeJS backend services on AWS Lambda to route real-estate leads to agents.
- Built GraphQL APIs unifying disparate legacy services into a single data interface.
- Assisted in overhaul of legacy Backbone.js apps to Angular 6.

Fulton Works

September 2016 - June 2017

Senior Developer

Chicago, Illinois

- Rapidly prototyped multiple web-based startups, working directly with founders to refine products.
- Stack: React.js, Redux, JavaScript ES6, CSS3, Django, Python, Webpack, Test-Driven Development.

PROJECTS

Statz on Statz

Interactive NBA weekly power-rankings data visualization, running since October 2015.

Data visualization

EDUCATION

M.S. Computer Science [Indiana University](#)

2010

Bloomington, IN

B.S. Computer Science [Earlham College](#)

2008

Richmond, IN

SKILLS

Languages: JavaScript ES6+, TypeScript, HTML, CSS, GoLang, Python, SQL

Frameworks: React, Redux, Redux Saga, Electron, Styled Components, Jest **Platforms & Tools:** NodeJS, NPM, Webpack, Babel, Git
