PROFESSIONAL SUMMARY

Senior full-stack engineer with 15 years across startups and larger platforms (SteelSeries, Fulton Works, Placester). Builds **React and TypeScript** frontends and **Python/Django** backends, and takes products from **0 to 1** with founders. Owns frontend architecture: an Electron application and sandbox harness, a video editing suite, and the **internal UI component library** and shared libraries other teams built on. Designs APIs and data models, practices TDD, and mentors engineers through code review and pairing.
