

Nathan Myers

(812) 391-1530 | nathanemyers@proton.me | linkedin.com/in/nathan-myers-173a9719 | github.com/nathanemyers | Chicago, IL

PROFESSIONAL SUMMARY

Senior full-stack engineer with 15 years working across the whole application lifecycle -- React frontends through Ruby, Node.js, and MySQL-backed services on AWS -- at startups and larger platforms (SteelSeries, TD Ameritrade, Cerner). Architecture-focused generalist who has designed and shipped Electron applications, internal component libraries, and shared NPM libraries, alongside backend services in NodeJS, GraphQL, and Python. Documentation-forward and mentorship-oriented -- known for pairing, constructive PR review, and advocating for long-term codebase maintainability.

CORE COMPETENCIES

Full-Stack Development

React & Ruby

AWS & MySQL

Mentorship & Code Review

Test-Driven Development (TDD)

Documentation-Forward Engineering

WORK EXPERIENCE

SteelSeries

December 2018 - July 2026

Senior Frontend Developer

Chicago, Illinois

- Mentored junior developers via constructive PR reviews and pair programming sessions.
- Designed and maintained the internal UI component library, with an eye toward long-term maintainability and refactoring for developers encountering the codebase fresh.
- Designed and implemented major architectural features, including a video editing suite, an Electron application and sandbox harness, and internal shared NPM libraries.
- Proactively built tools for other departments after learning about their jobs and pain points.

Placester

December 2017 - December 2018

Senior Developer

Chicago, Illinois

- Built NodeJS backend services on AWS, using AWS Lambda to perform complex routing of real-estate leads to real-estate agents.
- Built GraphQL APIs tying together disparate legacy services to provide a unified data interface.
- Assisted in overhaul of legacy Backbone.js apps to Angular 6.

Fulton Works

September 2016 - June 2017

Senior Developer

Chicago, Illinois

- Quickly prototyped several web-based startups with React, Redux, and Django, collaborating directly with founders to create and refine products through test driven development.
- Delivered across six concurrent early-stage engagements: Paro, AllInOrder, OfficeLuv, Grace, Pizza Hotline, White Jupiter.

GlobalNOC

November 2012 - July 2014

Software Engineer

Bloomington, Indiana

- Built a Network Operations Center (NOC) dashboard on a JavaScript/MySQL stack, reporting live outages and network errors, used by several major universities and US state networks.

- Maintained an array of router diagnostic software.

Cerner Corporation

January 2011 - June 2012

Software Engineer

Kansas City, Missouri

- Developed highly available SaaS for message processing and routing using Java, Mule ESB, and Spring MVC.

PROJECTS

Statz on Statz Data Visualization

Interactive NBA weekly power-rankings data visualization, self-directed and running since October 2015.

EDUCATION

M.S. Computer Science [Indiana University](#)

2010

Bloomington, Indiana

B.S. Computer Science [Earlham College](#)

2008

Richmond, Indiana

SKILLS

Languages: JavaScript ES6+, TypeScript, Ruby, Python, SQL, HTML, CSS, GoLang **Frameworks:** React, Redux, Node.js, Electron, Jest

Platforms & Tools: AWS (Lambda), MySQL, NPM, Git, Webpack, Babel, Unix

Practices: Full Stack Development, Test-Driven Development (TDD), Mentorship & Code Review, Documentation-Forward Engineering, CI/CD
