PROFESSIONAL SUMMARY

Senior full-stack engineer with 15 years across startups and larger platforms (SteelSeries, TD Ameritrade, Cerner). Ships **React + TypeScript** UI through **Node.js services owned end to end in production** - HTTP APIs, GraphQL, and the infrastructure underneath. Architecture-focused generalist who has designed and shipped Electron applications, internal component libraries, and shared NPM libraries. Documentation-forward and mentorship-oriented - known for pairing, constructive PR review, and building cross-team tools after learning a department's actual pain points. Actively building hands-on AI-assisted development experience: local LLM tooling and MCP server design.
