Nathan Myers

(812) 391-1530 | nathanemyers@proton.me | github.com/nathanemyers | Chicago, Illinois

PROFESSIONAL SUMMARY

Generalist software engineer with 15 years across startups and larger platforms (SteelSeries, TD Ameritrade, Cerner), comfortable ramping up quickly on new stacks - has shipped production work in Java, JavaScript/React, Python, and Go across seven different roles. Built backend data pipelines and services, automated cloud build/deploy pipelines, and is hands-on with AI-assisted development (daily Claude Code use), including a local LLM tool-calling sandbox project.

CORE COMPETENCIES

Go & Python | React & TypeScript | Distributed Data Pipelines | AWS | AI-Assisted Development | Generalist / Fast Ramp-Up | CI/CD Automation | Mentorship & PR Review

WORK EXPERIENCE

SteelSeries

December 2018 - July 2026

Senior Frontend Developer

Chicago, Illinois

- Designed and implemented major architectural features, including a video editing suite, an Electron application and sandbox harness, and internal shared NPM libraries.
- Built **backend data pipelines and services**.
- Configured Azure build automation pipelines.
- Proactively built tools for other departments after learning about their jobs and pain points.
- Mentored junior developers via constructive PR reviews and pair programming sessions.

Placester

December 2017 - December 2018

Senior Developer

Chicago, Illinois

- Built **NodeJS backend services on AWS Lambda** to perform complex routing of real-estate leads to real-estate agents.
- Built GraphQL APIs tying together disparate legacy services to provide a unified data interface.

Fulton Works

September 2016 - June 2017

Senior Developer

Chicago, Illinois

- Quickly prototyped several web-based startups, ramping up fast across React, Django, and Python for six distinct client products.
- Stack: React.js, Redux, JavaScript ES6, CSS3, Django, Python, Heroku, Webpack, Test Driven Development.

TD Ameritrade

January 2016 - July 2016

Senior Developer

Chicago, Illinois

- Automated build and deployment tasks via **Python**, Fabric, and Jenkins, reducing deployment time from 8 hours of dedicated engineer time to **15 minutes** of QA time.

PROJECTS

AI-Assisted NBA Stats

AI-forward sandbox project: a local Ollama model answers NBA questions by writing and executing SQL against a SQLite database via Ollama's function-calling API.

TypeScript, Ollama, SQLite, Node.js

EDUCATION

Master of Science in Computer Science Indiana University 2010
Bloomington, Indiana

Bachelor of Science in Computer Science Earlham College 2008
Richmond, Indiana

SKILLS

Languages: Go, Python, JavaScript ES6+, TypeScript, SQL, HTML, CSS **Frameworks:** React, Redux, Electron, GraphQL, Jest

Platforms & Tools: AWS (Lambda), Microsoft Azure, NodeJS, Git, ollama, Claude Code
